

Living Situation: Adults (18+ yrs.) Homeless by RSN.

Operational Definition: Percent of adult (18+ yrs.) outpatient recipients who had homeless listed as their primary residence at any time during a Fiscal Year by RSN.

Operational Measure: Adult (18+ yrs.) outpatient recipients who were homeless at any time in a Fiscal Year divided by the total number of outpatient recipients in that Fiscal Year by RSN.

Formulas:

$$\frac{\text{Number of adult (18+ yrs.) outpatient recipients who were homeless at any time in Fiscal Year by RSN}}{\text{Total number of adult (18+ yrs.) outpatient recipients in Fiscal Year by RSN}}$$

Discussion: This indicator shows the percentage of adult outpatient service recipients whose primary residence was homeless at some point in the Fiscal Year. The number of homeless served is fluctuating across the 3 years.

Data Notes:

- Age is calculated as of January 1, for each Fiscal Year.
- Adults are defined as 18 and above.
- The count of people receiving outpatient services includes clients who receive any outpatient services whether it was reported as an hour or a day of service
- Homeless is defined by the Living Situation Element found in the January 2002 Data Dictionary. If a person is listed with a code of 70 (homeless) at any point in time during the Fiscal Year they are considered homeless for the purposes of this indicator.
- RSN counts show the number of unduplicated clients within each RSN (i.e. a person is counted once in each RSN where they receive services).
- The State total is unduplicated across all RSNs (i.e. each person is only counted once in the Statewide total even though they can be counted in more than one RSN).

Living Situation: Adults (18+ yrs.) Homeless by RSN.
